

CHAPTER V

CONCLUSION

5.1 Conclusion

Conclusions can be drawn from the design and manufacture of infographic videos on LP3AP as follows:

1. Software used in the process of making videos is Adobe After Effect CC 2015, Adobe Illustrator CC 2015, Adobe Audition CC 2017, and Adobe Premiere Pro CC 2015.
2. To visualize basic information material about Violence against women and children in Papua, 8 characters and 16 scenes are needed.
3. Requires 4 minutes of rendering time.
4. From the results of the questionnaire for video infographics on LP3AP, the results are obtained if the video is Very Clear and gets an Approval, if the video is interesting and worthy of being used as one of the materials for campaign / extension materials.
5. Infographic videos are implemented into www.youtube.com streaming video and stored on CD.

5.2 Suggestion

The script writer of this thesis is certainly still lacking, for this reason, the author gives some suggestions that could help in making and designing the next infographic video :

1. Perform a mature concept design so that it can simplify the process of video production.

2. Add expertise in graphic design.
3. Expand references about motion graphic videos so that video creation can be more interesting.
4. Increase skills in applying effects.
5. Records for narratives are sought at the same time and conditions so the recordings are no different.
