

CHAPTER V

FINALE

5.1 Conclusion

Based on the discussion that has been presented by Kirim-in.com website and analysis, the conclusions of this paper are as follows:

1. Website Kirim-in.com functions for digital media distribution of goods and documents.
2. The Kirim-in.com website opens up employment opportunities.
3. Website Kirim-in.com provides detailed information on job options and rates obtained.
4. Website Kirim-in.com is an alternative distribution service for goods or documents.
5. Website Kirim-in.com provides freelance couriers with various backgrounds.

5.2 Suggestion

Based on The Arrangement of Website Kirim-in.com As An Agent During The Shipping Process as for weaknesses and weaknesses. Much further development needs to be done so that the system and writing are better, as for the advice obtained from this writing is:

1. It is necessary to develop features on the Kirim-in.com website such as matching data between the sender and the courier when they agree with each other.

2. Feature developments need to be made on the Kirim-in.com website such as the same mileage
3. Add checking feature whether the goods have arrived at the recipient or not.
4. This website can only be used using a web browser, it is necessary to create a mobile application so that service users do not need to open it through a browser because there is already a mobile application on the cellphone.
5. Website security system needs to be improved.
