DEDICATION

Skripsi ini saya persembahkan untuk :

- Allah SWT yang senantiasa memberikan hidayah dan inayahNya kepada saya.
- Ayah dan Ibu terkasih yang selalu mendoakan dan mengalirkan cintanya kepada anak-anaknya, yang selalu menyemangatiku untuk terus maju serta bersabar dan istiqomah dalam segala hal.
- Adiku terkasih yaitu Drajat Wahyu Sejati dan Sekti Hanif Azahra terimakasih untuk doa dan support kalian.
- Untuk Bapak M.Rudyanto Arief, S.T, M.T terima kasih untuk bimbingan dalam mengerjakan skripsi dan semangatnya.
- Bapak Joko Wibowo selaku Kepala Desa Giring Kabupaten Gunungkidul dan staf Kelurahan Desa Giring yang telah memberikan ijin obyek penelitian pada Kantor Kelurahan Desa Giring.
- Untuk kekasih hati saya Herdhika Yogi Wicaksana. Terima kasih selama ini sudah menemani berjuang bersama.
- Untuk Muhammad Zulfiqar dan Nanda Nugraha yang banyak membantu coding , terimakasih atas masukan serta sharing ilmunya tentang dunia web dan coding.
- Untuk kakak sepupu saya tercinta Khotimah Suci Utami, terima kasih atas dukunganya yang luar biasa selama ini.
- Untuk sahabat-sahabat saya yang bernama TEAM JAHAT (Pluto,Fantri,Elsa,Lucky,Bayu) terima kasih atas dedikasi kalian selama ini untuk persahabatan kita.
- Untuk Sahabat saya (wiwin,omay,sari,susi,devi) terimaksih atas cinta kasih kalian selama ini.
- Teman-teman BCIS 14. Kalian yang selalu saya sayangi, Terimakasih untuk pengalaman tak ternilai selama beberapa tahun ini. Kalian luar biasa.

PREFACE

Praise and gratitude to Allah SWT who has given mercy, guidance and strength so that author can finish this undergraduate thesis in accordance with the desired time. Do not forget shoawat and greetings are extended to the esteemed Prophet Muhammad SAW, which has been spreading Islam so that all Muslims can feel the beauty of Islam.

This undergraduate thesis is structured as a graduation requirement for all students at the University of Amikom Yogyakarta. It is also a proof that the students has finished undergraduate level an obtain a Bachelor's degree in Computer.

With the completion of this undergraduate thesis, the author wants to thank to :

1. Prof. Dr. Muhammad Suyanto, MM as The Rector of University of Amikom Yogyakarta.
2. M.Rudyanto Arief, S.T, M.T as the Supervisor who has provided guidance and assistance to author in the working of undergraduate thesis.
3. Author's parents who always provided support and prayers
4. Mr. and Mrs. Lectures at University of Amikom Yogyakarta, which has provided knowledge for author lectures.
5. The Government of the village sleigh gunungkidul Regency

INTISARI

Sistem informasi kependudukan pada tingkat desa biasanya masih menggunakan sistem yang manual. Hal ini menimbulkan beberapa kendala untuk melakukan proses penginputan data kependudukan., terutama pada ketidak validan sebuah data. Sering juga terjadi kendala pada saat pencarian data pendatang baru,kelahiran,kematian,pindah, dan datang dalam setiap periodenya. Demikian pula halnya dengan penyedian data, misalnya data pekerjaan, data pendidikan dan data demografi penduduk yang sering tidak diperbaharui.

Dari kendala-kendala diatas, maka dibuatlah rancangan suatu sistem informasi kependudukan. Diharapkan sistem informasi kependudukan pada tingkat desa ini akan sangat membantu instansi pemerintah dalam melakukan pendataan penduduk dalam ruang lingkup sebuah desa. Dimana sistem ini akan melakukan proses pendataan penduduk, kartu keluarga, anggota keluarga, kelahiran, kematian, pendatang, pindah dan mencetak laporan data penduduk, data kartu keluarga, data kelahiran, data kematian, data pendatang dan data pindah di setiap periode.

Rancang Bangun sistem informasi kependudukan pada kelurahan Desa Girning Kecamatan Paliyan Kabupaten Gunungkidul berbasis web dengan pemograman PHP dan basis data MySQL.

Kata Kunci: Sistem Informasi, Pendataan, Kependudukan, MySQL

ABSTRACT

Popoulation information system at the village level are usually still uses a manual system. This proses some obstacles are quite cumbersome, especially on incalidity and mismatch of data. Often occurs when the search constraints on information about new residents, or residents who moved out of the village. Similarly, the provision of data such as employment, education data and demographic data of the population is often not updated.

Departing from the contraints abouve, then made the design of an information system on population. Expected population information system at the village level will greatly assist government agencies in conducting population census in the scope of a village. Where this system will make the process of population census, family card, family members, births, deaths, immigrants, move and print reports data on population, family card data, date of birth, mortality data, the data and the data settlers moved.

Building Information System The Village Population Of Gunungkidul Regency.
