## MOTTO

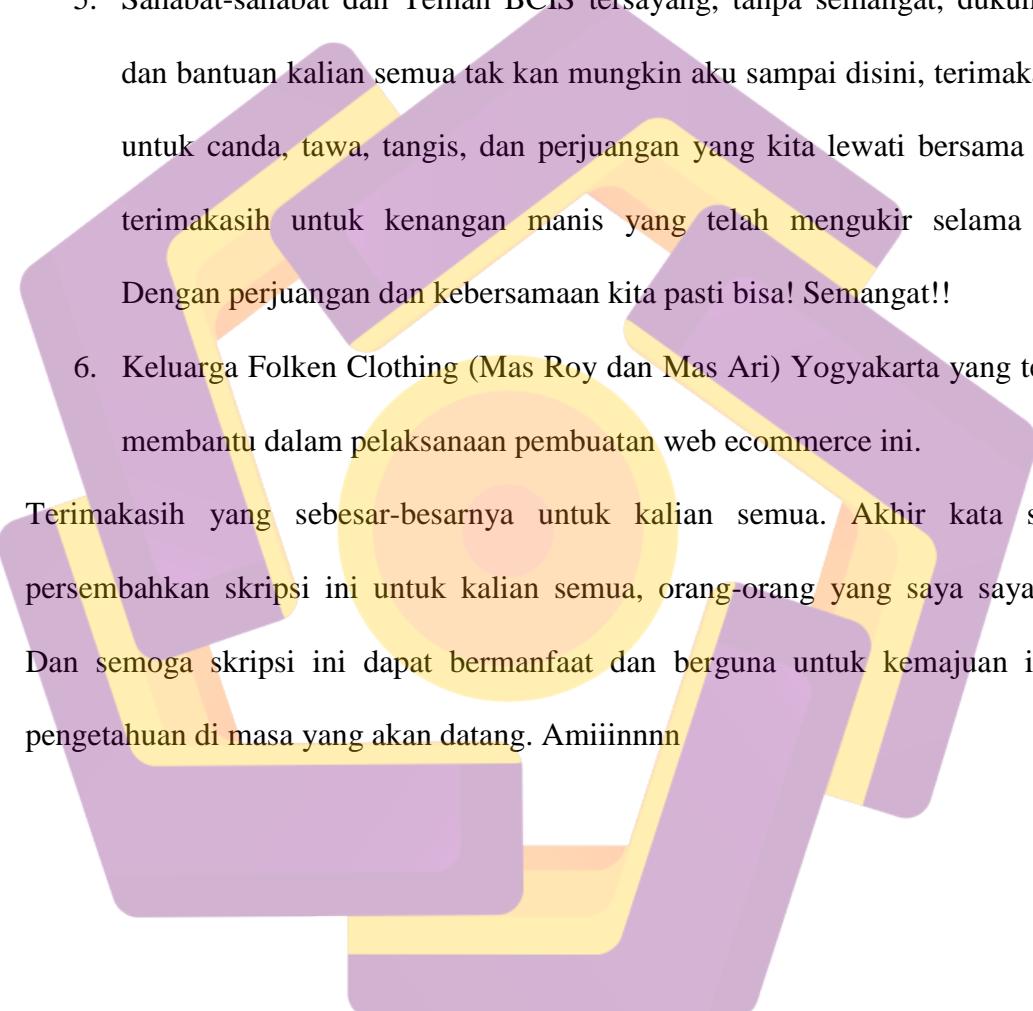

- The never-ending treasure is invaluable science and science is education.
- No success without struggle, and no struggle without sacrifice.
- Be like a rock in a sea that is always strong despite being hit by waves and do things that are beneficial to yourself and also to others, because life is not eternal.

## **DEDICATION**

Alhamdulillahirobbil'alamin puji syukur kepada Tuhan yang Maha Esa, karena hanya atas izin dan karunia-Nyalah maka skripsi ini dapat dibuat dan selesai pada waktunya. Puji syukur yang tak terhingga pada Tuhan penguasa alam yang meridhoi dan mengabulkan segala do'a. Oleh karena itu, dengan rasa bangga dan bahagia saya khaturkan rasa syukur dan terimakasih saya kepada:

1. Kedua orang tua tercinta (Ayahanda Baryana dan Ibunda Sutarni), yang telah memberikan dukungan moril maupun materil serta do'a yang tiada henti untuk kesuksesan saya, karena tiada kata seindah lantunan do'a dan tiada do'a yang paling khusuk selain do'a yang terucap dari orang tua. Ucapan terimakasih saya tidak cukup untuk membalas kebaikan orang tua, karena itu terimalah persembahan bakti dan cinta ku untuk kalian bapak ibu ku.
2. Bapak dan Ibu Dosen pembimbing, pengaji dan pengajar, yang selama ini telah tulus dan ikhlas meluangkan waktunya untuk menuntun dan mengarahkan saya, memberikan bimbingan dan pelajaran yang tiada ternilai harganya, agar saya menjadi lebih baik. Terimakasih banyak kepada Bapak dan Ibu dosen.
3. Adik –adik saya (Nenden dan Nadine), yang senantiasa memberikan dukungan, semangat, senyum dan do'anya untuk keberhasilan ini, terimakasih dan sayang ku untuk kalian.

- 
4. Kekasih hati saya (Toni Suryana), terimakasih atas support dan do'anya selama ini. Yang selalu membantu saya dari awal sampai akhir, yang tak hentinya memberikan kritik dan saran serta motivasi semangat yang luar biasa.
  5. Sahabat-sahabat dan Teman BCIS tersayang, tanpa semangat, dukungan dan bantuan kalian semua tak kan mungkin aku sampai disini, terimakasih untuk canda, tawa, tangis, dan perjuangan yang kita lewati bersama dan terimakasih untuk kenangan manis yang telah mengukir selama ini.  
Dengan perjuangan dan kebersamaan kita pasti bisa! Semangat!!
  6. Keluarga Folken Clothing (Mas Roy dan Mas Ari) Yogyakarta yang telah membantu dalam pelaksanaan pembuatan web ecommerce ini.

Terimakasih yang sebesar-besarnya untuk kalian semua. Akhir kata saya persembahkan skripsi ini untuk kalian semua, orang-orang yang saya sayangi. Dan semoga skripsi ini dapat bermanfaat dan berguna untuk kemajuan ilmu pengetahuan di masa yang akan datang. Amiiinnn

## INTISARI

Folken merupakan distro yang berada di kota Yogyakarta. Distro ini didirikan pada tahun 2013 oleh Ari Samaktha. Distro ini menyediakan berbagai macam produk seperti kaos, jaket, celana boxer, topi, aksesoris dan lain-lain. Saat ini, Folken Clothing masih memasarkan produknya secara konvensional. Jadi, informasi produk yang dikenal masyarakat luas sangatlah minim. Dengan melihat perkembangan teknologi yang semakin pesat, khususnya dibidang penjualan, maka perkembangan bisnis sekarang ini mulai berubah paradigmnya tidak hanya terpusat pada *local* saja tetapi juga sudah menjadi *global* yaitu dengan adanya pemanfaatan teknologi *internet*.

Untuk metodologi pembangunan perangkat lunak yang digunakan adalah *metodologi waterfall*. Dalam metodologi pembangunan ini dilakukan beberapa langkah untuk membangun sebuah perangkat lunak, yaitu: rekayasa perangkat lunak, analisis sistem, perancangan sistem, implementasi sistem, pengujian sistem, dan pemeliharaan sistem. Dengan menjalankan tahapan-tahapan berdasarkan metodologi yang ada, maka website yang dibangun diharapkan sesuai dengan kebutuhan dan dapat digunakan oleh *customer*.

Website *e-commerce* yang dibuat mampu meningkatkan penjualan produk, mempermudah pembuatan laporan penjualan produk dan menjadi media informasi serta dapat mempermudah konsumen untuk melihat produk terbaru, tanpa datang ke toko secara langsung.

## ABSTRACT

Folken is a distro located in the city of Yogyakarta. This distro was founded in 2013 by Ari Samaktha. This distro provides a wide range of products such as T-shirts, jackets, boxer pants, hats, accessories and others. Currently, Folken Clothing is still marketing its products conventionally. Thus, product information widely known to the public is minimal. By looking at the rapid development of technology, especially in the field of sales, the business development is now beginning to change its paradigm not only focused on the local alone but also has become a global that is the use of Internet.

For software development methodology used is waterfall methodology. In this development methodology several steps are taken to build a software, namely: software engineering, system analysis, system design, system implementation, system testing, and system maintenance. By running the stages based on the existing methodology, the website built is expected to suit the needs and can be used by the customer.

E-commerce website created able to increase product sales, facilitate the making of sales reports and products into information media and can facilitate consumers to see the latest products, without coming to the store directly.
